

# Community Climate Action Plan

By and for Disabled people in Bristol

There will be big changes in Bristol soon to try to stop climate change. We want to make sure these changes are good for our planet and for Disabled people.

Climate change means how our planet's weather and temperature is changing because people use dirty fuels like oil and gas. This is causing lots of problems in Bristol and around the world.

We have made a plan to help Bristol use less dirty fuels and make lives better. We worked with Disabled people in Bristol to write this plan.

Easy read

## Some of the changes we want others to make

1. Make public transport more accessible.

2. Build homes in a way that makes them easy to change if a Disabled person wants to live there.

3. Make accessible places where Disabled people can grow food.

## Some of the changes our group wants to make

1. Help Disabled people fix their own equipment so they don't have to buy new things.

2. Make a new job called Energy Champion. They will:

- Explain what Disabled people need so businesses can be inclusive.
- Give people information about how to get good energy.
